Dear Friends - At IAP elections 2006, 2007 with your valuable vote I was elected as state representative. At Central EB I have actively represented on points like demanding VVM for individual vaccine dose from every vaccine manufacturer, need to prevent unethical vaccination camps and to prepare code of conduct for IAP member to participate at vaccination camps. I was assigned to work on these issues by the CIAP EB. In my presidency in 2007 IAP Gujarat had successfully launched project "TRUMPPS" for the training of untrained paramedical staff . So far we have trained 1100 paramedic working in private and government hospitals. The state government has announced "TRUMPPS trained staff" as one of the prerequisite for joining government's " Bal Sakha Scheme". A research paper on TRUMPPS project has been selected for presentation at the 8th International Conference on Urban Health, Nairobi, Kenya and I have been invited to present the paper at Nairobi. Motivated by these I have filed my nomination for the post of EB member at the central IAP. I request you to give your mandate once again in my favor and give me the opportunity to serve at the national EB. Jai IAP Dr. Digant D. Shastri
