• DR SUNIL K MEHENDIRATTA

Dear Academician

I have decided to contest for the post of EB Member from Delhi. I have done my M.B., B.S. and M.D. from MAMC and Senior Residency from KSCH. I am practising as a consultant in Paediatrics at Mata Chanan Devi Hospital Janak Puri for last 19 years. I was Secretary IAP West Delhi in 2004-2005 and President in 2006. During my two and half years of tenure at IAP West Delhi, we had regular monthly meetings along with grand annual meetings. We started from nil account to an account with decent savings. I was treasurer of Delhi IAP in 2007 and secretary in 2008. As Secretary Delhi IAP we organized the International Vaccine

Conference 'INVAC' in 2008, which was attended by International Faculty, National Faculty and around 200 delegates from all over India. This conference was a huge success resulting in big savings for Delhi IAP. We also started successful negotiations with Wiley publication to start our own publication. As EB member I will be a strong voice for Delhi IAP and the experience gained will be used to better the functioning of Delhi IAP. Hoping for positive response from you.

Thanking You

• **DR ATUL KUMAR AGARWAL**

Thanks to Drs. Vineet Saxena and Ghanshyam Mishra for showing up their solidarity towards unified IAP UP, by withdrawing their names and allowing me to be in EB2011 again. And, this is also my dream, to see IAP India as one unified body working for real welfare of the grass root Pediatrician and making each one to join the main stream. Every pediatrician to get the chance to show his/her capability as an asset to IAP, is my goal. We have got tremendous talent down till the last periphery as proved by our prestigious Navjaat Shishu Suraksha Karykram (NSSK) by which IAP has discovered many gems across the whole length and breadth of the country. Parenting program should

now be a National movement. Thanks to EB of 2009 who made me Vice President and permitted me to do some thing for our great Organization. I still have long way to go to deliver what you all have been thinking from long and have pinned your hopes on me. Humbly and honestly I bow my head to all of you and assure you that I will leave no stone unturned to come upto your expectation.
